INTRODUCTION

近未来　世界は一支配する者と支配される者とに分かれていた。圧倒的な力で地上を治めるのは、天空に浮かぶ人口の約半数が暮らす都市・ザレム。だが、いつ、何のために、空中都市を造ったのか、その真相は謎に包まれていた。

地上のクズ鉄町に住むサレム出身の女の子・ユーミは、ある日、廃棄物の山の中から少女の頭部を発見し、ガリィと名付ける。頭部は、傷ついたものの、彼女の心臓は元気を取り戻していた。サイボーグ戦士の心臓は、ガリィの体に取り付いた電子頭脳を除々に呼び覚ます。ガリィは賞金稼ぎを生業としながら、自己発見の旅を続け始めた。

ザレムに憧れるユーミと出会ってから、ガリィの運命は大きく変わった。ユーミを連れ去ろうと飛び込んできたアクション男・ジャンゴとの激闘で、元の体を修復するために、ガリィは賞金稼ぎを続けるが、ユーミの村を襲うモンスターに変造された元人間との戦いの中で、ガリィは家族とユーミを失う。

その時、ガリィの脳内に埋め込まれた、ザレム出身の最終兵器・DESTRUCTO-TUNED（デストロ・チューンド）に変化する事を選んだ。

ガリィは、最凶のアサギアと知りながらも、ユーミの心を取り戻すために、デストロ・チューンドに変化する事を選んだ。

そんなガリィの前にユーミにそっくりなノヴァが現れる。ノヴァは、ユーミの記憶を持っていたが、ユーミとは別人だった。ノヴァとの出会いが、ガリィの運命を大きく変えていく。

ガリィは、ユーミを救うために、ノヴァを倒すことができるのか？

How did you get this?!

Hmm! So That's Zazie.
I left the kid with the police...

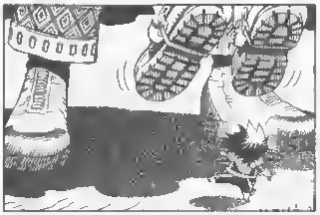
Limeira put me down to have tea, and a little boy grabbed me.



Do you have any idea what'll happen to him?!

W-What do you mean?!

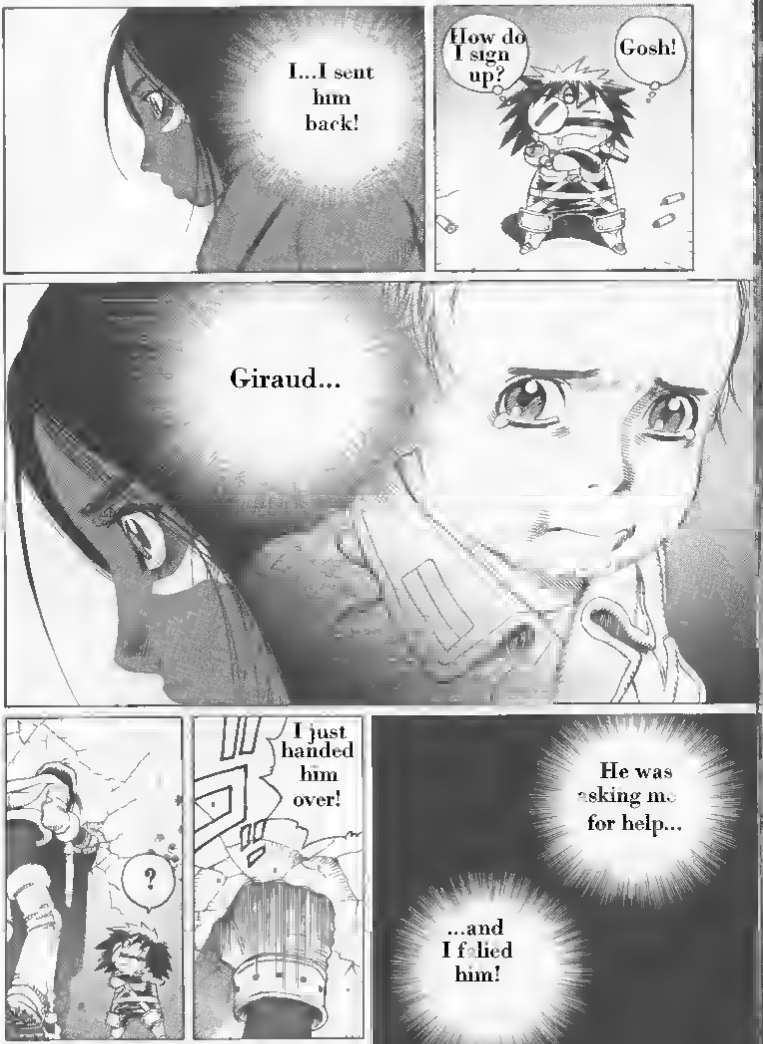
You did what?!

fap

No violence, please- you must explain!

Here, unlike in our kingdom, children have no rights!
Must I remind you, queen Limeira?
We´re not at home!
...escaped from a juvenile infantry school.
We can be fairly certain that little boy...
The police will hand him back to his owner.... the school!
A... WHAT?
....is the mindless slaughter they call "combat training"!
All he can look forward to there, if by some miracle he survives...



I...I sent him back!
How do I sign up?
Gosh!
Giraud...

I just handed him over!
He was asking me for help...
...and I failed him!

You can't give up hope already!
Zazie! Ahta! Pull yourselves together!
But queen ...!
Money will talk, even at a school that kills innocent children.
Lucky for us, LADDER filled our war chest!

What was that about a flag,Zazie?
How do you know all about this?
And it's not just the kids... professional mercenaries, amaturs war buffs, bored rich folks...
Register to be a soldier, and you can fight over em.
They fly flags with bounties on them all over the terrain.

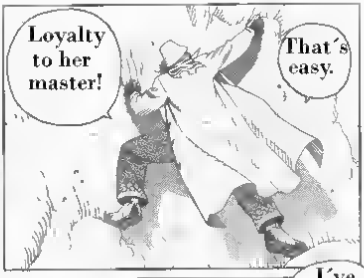
Don´t spit on my head!

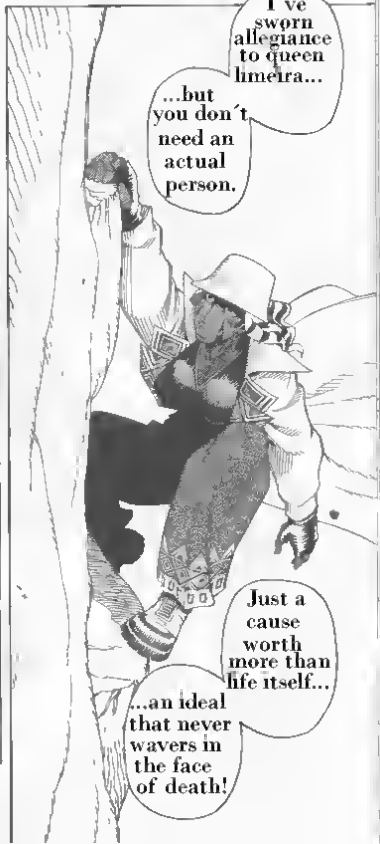


Loyalty to her master!
That´s easy.

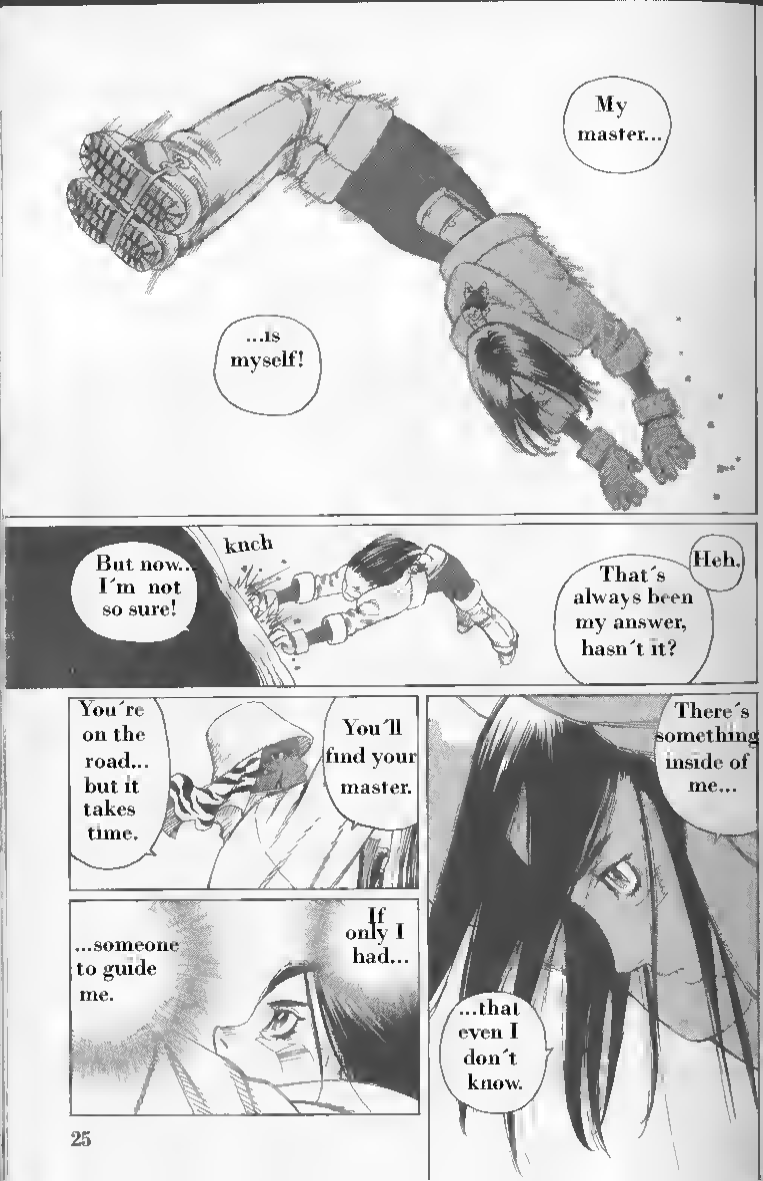
Have a code to live by...
...and fighting to the end...
that´s what makes a warrior!

"An ideal that never wavers"...

Alita !
Do you have a master?



I´ve sworn allegiance to queen Imeira...
...but you don´t need an actual person.
Just a cause worth more than life itself...
...an ideal that never wavers in the face of death!



My master...

But now... I´m not so sure!

Heh.
That´s always been my answer, hasn´t it?
You´re on the road... but it takes time.
You´ll find your master.

There´s something inside of me...

What is this?

On the battle-field...
This is how they dispose of their children.
We're too
Why?
Why must these little children fight to the death?!

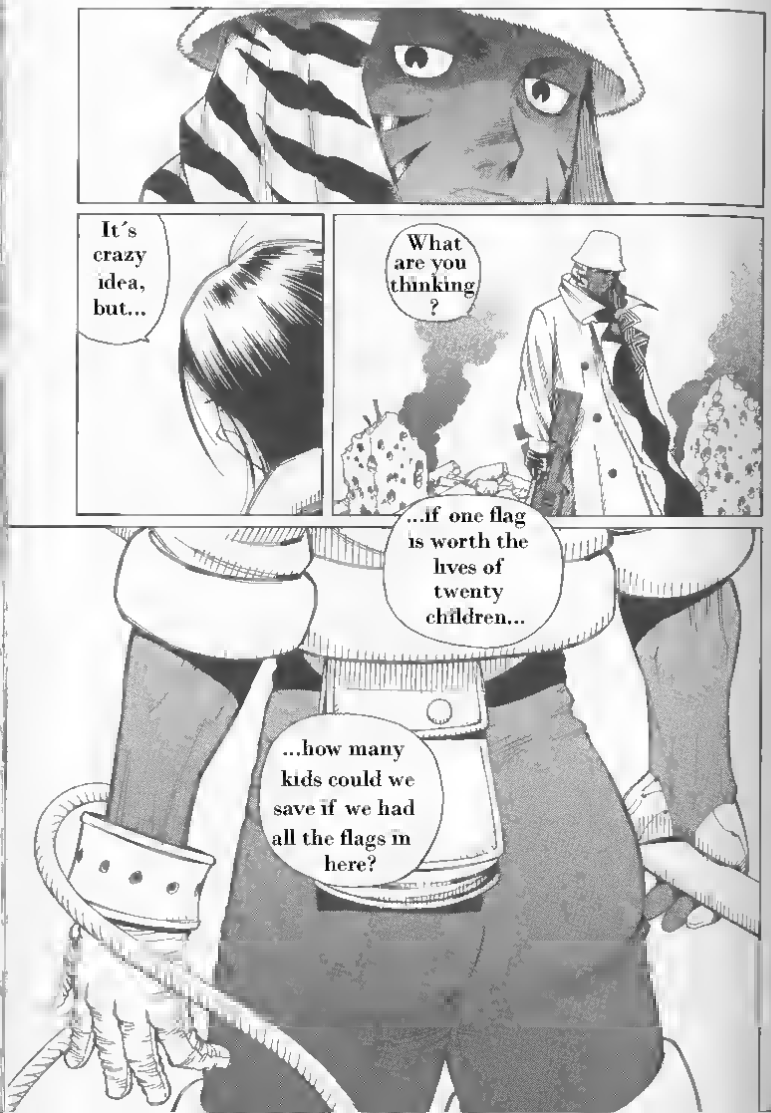
Giraud and his comrades will have quite a memorial.
Twenty kids in Giraud´s platoon...
That´s flag twenty !

Zazie...
Let's head back.
...how many flags are there altogether in the combat chamber?



It´s crazy idea, but...
What are you thinking ?
...if one flag is worth the lives of twenty children...
...how many kids could we save if we had all the flags in here?

I can´t just do nothing!

But I've never let that stop me before!
I know it won't change the system.
Until LADDER fixes this mess, the tragedy will go on.
Cononal Payne isn't the only owner of a juvenile infantry school
It won't solve a thing... but...
In two week's time, the flags will be back.
...no one like Giraud will have to die!
...for those two weeks, at least...

Zazie..
I'll go with you!
Queen Limeira and I talked it over.
But only for three days.
Ah, small soul...
...it feels so good to change what doesn't still you!
So much harder to admit how powerless you truly are.
Even slaves don't have to feel their chains...
...while they fight!

Is your passion any match for their fire?
One day, the stars in the night sky will burn out.
Your day, too, will come! And I'll be waiting!

If it gets any worse, I'll have to go out there!
It's a clever tactic. And a deadly one!
He's using his reverse stab and dirt tsunami moves to change the terrain, making it impossible for Alita to attack or defend!
You made my day!
It's so unusual for a foe to successfully evade my attacks in the crater of hell...
Are you okey, Alita?
Yeah. You?

Karate does not sanction death under such circum-stances.
I have never faced such a spirit.
While unconscious she took me down using only her instincts!

The first to defeat me since I got my black belt...
I, too was very small...and I longed to be stronger than anyone.
When I began karate, I traded in my flesh-and-blood body without hesitation.

How does she do it?
I had to have strenght to win...
...and I believed that my size was all that stood in my way.
What enables her to fight so well when she is so small?
What spirit moves her to battle on?

How can one know...
...the tenacity that hides in this cute, fragile shell?
How can she contain ...
...such a vast force of will, such great power?

You're not the first to ask, Toji.
Alita is a Panzer Kunst master.

The home of Panzer Kunst was wiped out 200 years ago.
The ruins remain... and one survivor practitioner

And Alita is the best at it.

DESIGNED FIGHTING AREAS

75% of the ship's center is used for war games. This combat Chamber is broken up into 26 areas lettered from A to Z. There are three flags in each area, totaling 78 flags. To encourage heavy casualties, the administration assigns a per-flag bounty. Flags are replaced every three weeks.

THE VALUE IF LIFE

Since the spread of immortality technology, death can only occur by accident or violence. In space, the value of life varies. Indeed, some even place a higher value on death, recklessly putting their lives at risk. The combat chamber serves their needs - a release for the nihilistic tendence of the population.

ENGINE AREAS

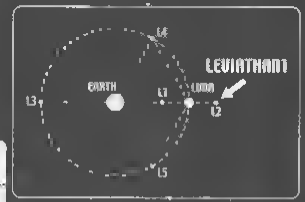
As first built, Leviathan I used a large-model reverse disintegration engine, fed by an anti-matter reaction. Capable of destroying an entire planet, these engines were banned and removed under the LADDER treaty. LADDER now houses its "NEWORDER" base here.

ORIGIN OF THE NME LEVIATHAN

Mentioned prominently in the Old Testament books of Job, Psalms and Isaiah, the sea dragon Leviathan was the biggest and strongest beast God created. "Nothing on earth is his equal - a creature without fear. He looks down on all that are haughty; he is king over all that are proud" Job 41:33-34

図解 THE STRUCTURE OF LEVIATHAN I

Total lenght 16 km. Construction began in the year 357 and ended in 377. One of five space colony ships. Leviathan I uses centrifugal force to create a livable space at the ship's center, sufficient for successive generations to be born during lengthy interstellar travel. Tipheres was first built as a prototype for just such an isolated society.



THE BOW OF THE SHIP

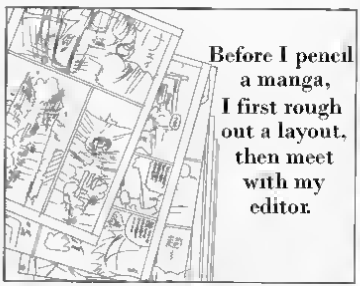
Per the LADDER Treaty, leaving the station is prohibited. The Earth Orbitary Federation created the "Leviathan Committee" (a.k.a. the administration) to serve and protect the station's inhabitatants.

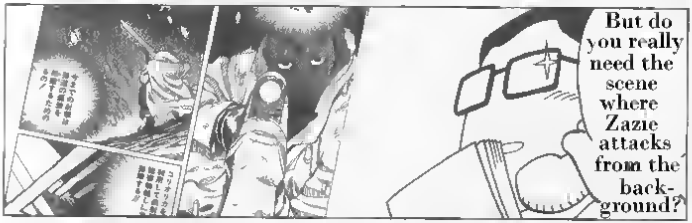
HOBBES CITY

Hobbes City surrounds the centrifugal force area in the centre of the ship. Located near the docking bay, with an estimated population of 1.300,000, it is a port of trade with strict security. Nevertheless, illegal immigrants and fugitive criminals are plentful. Designated fighting areas allow inhabitants to battle to their hearts content, which may account for the security of violent crime onboard.

This is a true story that occurred during a meeting ragarding Phase 32 of Last Order

No Good World!





Mr. Tomita felt that Zazie's actions lessened the impact of Alita's climatic attack.

Sometimes the author gets so into his story that he can't see the forest for the trees. At those times, the editor's opinion is very important.
